

artworked images

artworked images are a collection of your fully edited photos (chosen by you) that you would like to see further refined before printing or sharing. these specialty edits might include but are not limited to:

1. airbrushing
2. removal of spots & adding vintage finishes
3. increasing vibrancy, removal or addition of obstruction (plus a little bit of light lawn maintenance?!)

*removal or addition of obstructions are image specific and IF REQUESTED can be discussed with the photographer
